[Opus Chords Sans Font Type](#)

```
Intro F Am Dm Bb

F                                        Am
Baby blue staring in the window pane just counting drops of rain
Dm                                   Bb
Wondering if she's got the guts to take it
F                               Am
Running down her dreams in a dirty dress, now her heart's a mess
Dm                           Bb
Praying that she'll find a way to make it

F                               Am
So keep on climbing, though the ground might shake
Dm                                 Bb
Just keep on reaching though the lid might break
F                          Am
We've come this far, don't you be scared now
Dm                    Bb  Bb
Cause you can learn to fly on the way down

F                                        Am
Searching for a sign in the night, even like a lonely string of lights
Dm                                 Bb
That'll burn just long enough for you to see it
F                             Am
The road's been long and lonely and you feel like giving up
Dm                           Bb
There's more to this than just the breath you're breathing

F                               Am
So keep on climbing, though the ground might shake
Dm                                 Bb
Just keep on reaching though the lid might break
F                          Am
We've come this far, don't you be scared now
Dm                    Bb
Cause you can learn to fly on the way down

F            Am              Dm          Bb
             On The Way Down

Dm                           Am                  Bb
You won't forget the heavy steps it took to let it go
Dm                          Bb
Close your eyes, count to ten, hold your breath
Bb
and fly

F                               Am
So keep on climbing, though the ground might shake
Dm                                 Bb
Just keep on reaching though the lid might break
F                          Am
We've come this far, don't you be scared now
Dm                    Bb  Bb
Cause you can learn to fly on the way down

F            Am              Dm          Bb
             Ohh-oh, oh-oh                Fly
F            Am              Dm          Bb
                                         Fly
```
